16 Channel Digital Video Recorder

## **User's Manual**

|--|--|

# 

This label may appear on the bottom of the unit due to space limitations.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of insulated dangerous Voltage within the product's enclosure that may be sufficient magnitude to constitute risk of electrical shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operation and maintenance (servicing) instructions in the literature accompanying the appliance.

# WARNING: TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE UNITS NOT SPECIFICALLY DESIGNED FOR

Attention: installation should be performed by qualified service Personnel only in accordance with the National Electrical Code or applicable local codes.

Power Disconnect. Units with or without ON-OFF switches have power supplied to the unit whenever the power cord is inserted into the power source; however, the unit is operational only when the ON-OFF switch is the ON position. The power cord is the main power disconnect for all unites.

"CAUTION: Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to the manufacturer's instruction."

#### About this document

Before installing stand alone DVR, be sure to thoroughly review and follow the instructions in this Users Manual. Pay particular attention to the parts that are marked **NOTICE**.

Also, when connecting with external application, first turn the power OFF and follow manual

instruction for appropriate installation.

#### Before reading this document

- 1. This document is intended for both the administrator and users of stand alone DVR Model.
- 2. This manual contains information for configuring, managing and using stand alone DVR Model.
- 3. To prevent fire or electrical shock, do not expose the product to heat or moisture
- 4. Be sure to read this manual before using stand alone DVR Model.
- 5. For questions and technical assistance of this product, contact your local dealer.
  - Strong recommendation on installation of the DVR unit
- 1. Check electricity at the place you want to install the DVR unit is stable and meets our electricity requirements.

Unstable electricity will cause malfunction of the unit or give critical damage to the unit.

2. Several chips on the main board of the DVR unit and hard disk drive inside the unit generate heat, and it must be properly discharged.

Do not put any objects just beside exhaust port(fan) on the left side of the unit and do not close up an opening (fresh air in-take) on the right side of the unit..

Put the DVR unit at well-ventilated place and do not put heat-generating objects on the unit.
 When it is installed inside 19 inch mounting rack together with other devices, please check built-in ventilation fan of the rack is properly running.

◆Relay output : COM+NC, COM+NO

 Alarm input : Short-circuit between Alarm1, Alarm2, Alarm3 or Alarm4 and GND is recognized as alarm by default. Alarm 1 ~ 16 will be corresponding to Camera 1 ~ 16.

# NOTICE: Sensor input is RECOGNIZED as LOW when alarm signal is on a level with GND, and it is recognized as HIGH when alarm signal is FLOATING or 5V. Following is internal circuit.

Thus, there is a danger of damage, when the sensor input goes to a Negative level or voltage higher than 5V.

5) Network Connection DVR connects to LAN

•To view video image on the computer through internet with DVR view software.

#### 5) HDD connection

- 1. Make sure the HDD is MASTER.
- 2. Make sure the cable connector is correct.
- 3. Please check the HDD panel for Master set up.
- 1. Make sure the HDD is MASTER and SLAVE.
- 2. Make sure the cable connector is correct.
- 3. Please check the HDD panel for Master and Slave set up.

#### Notice:

-The 16 ch DVR provides 2 internal hard drives. We provide one hard disk drive with removable rack; the other one is fixed designed.

- We recommend you to set the Removable Hard Disk as Slave. Set another one as the Master.

-Hard Disk Master and Slave jumper pin must right, otherwise it makes DVR work fault.

#### Hard Disk testing table:

Brand	Model	Capacity	Notice
Seagate	Barracuda	80 GB	
IBM	DeskStar	80 GB

## VGA Description (Optional)

#### Accessories:

- 1. 20 PIN Male to Female D-SUB pin cable X 1
- 2. VGA PCB bracket X1
- 3. Screws X4
- (Only fit on product serials Z7-00-VGA0-00)
- 1. VGA board introduction.

#### 3. Resolution and NTSC/PAL switcher table

Pin 4	Resolution	Pin 1	Pin 2	Pin 3	
PALON 640X480 60HZ		ON	ON	ON	
NTSCOFI	F 800X600 60HZ	ON	ON	OFF	
	1024X768 60HZ	ON	OFF	ON	
	640X480 75HZ	ON	OFF	OFF	
	800X600 75HZ	OFF	ON	ON	
1024X768 75HZ		OFF	ON	OFF	
Resolution and NTSC/PAL switcher description					
Step. 1	DVR Power off				
Step. 2	Pin 4 switcher to NTSC or PAL				
Step. 3	DVR Power on				
Step. 4	Pin 1 ~3 switcher resolution. It cannot be power off DVR.				

## Additional

Hard Disk x 2 can be installed on DVR base. Both are 2-iron slices immobile type. 2 Iron slices are in the accessories box, please tell supplier if slices are not exist

2-iron slices immobile type:

Slices immobile type: 4 screws hole on each slice. 2 for DVR base fixed. Another 2 for hard disk fixed.

Hard disk install.: Locking hard disk screws, then locking DVR base screws to fixed on.
